Total income has decreased by \$10.9 million for the first nine months of the financial year primarily due to a non-recurring capital gain in 2006 of \$13.3 million on the reduction by 10% of the Group's interest in the Duty Free Caribbean Group. In the current period there was a \$1.7 million gain relating to property appreciation.

Our Share of Results of Associates has increased by \$2.8 million or 37% as the majority of our associated companies recorded better performances in 2007. Of particular note was the performance of the Duty Free Caribbean Group where income before tax for the nine months was up 33%. Among our other associated companies, Bridgetown Cruise Terminal, Fortress Fund Managers, GCS - Ganzee and Signia Financial Group all contributed much improved earnings. Net income for the first nine months is \$11.1 million compared to \$20.2 million in the prior period, a decrease of 45% as a result of the one-off gain noted above.

Barring any unforeseen negative events we should achieve effective operational earnings of \$0.60 per Share for the full year which we forecast in our last annual report to shareholders.
